Class B Shares ISIN Number: MT7000029237

This Fund is managed by Gamma Capital Markets Limited.

Objectives and Investment Policy

The **Investment Objective** of the Fund is to achieve medium to long term capital growth.

The **Investment Manager** shall invest primarily in a diversified portfolio of listed equities. The Investment Manager may also invest in: (i) other listed transferable securities, (ii) money market instruments, (iii) FDIs (including futures, forwards, options and contracts for differences) and (iv) eligible ETFs. The Investment Manager may invest in these asset classes either directly or indirectly through UCITS Funds.

The Fund may invest in equities of medium to large capitalisation companies (market capitalisation more than USD1 billion). The Fund may also limitedly invest in the equities of small capitalisation companies (market capitalisation less than USD1 billion).

The bond portfolio of the Fund is expected to have an average duration of 1 to 7 years.

The Fund may engage in exchange traded FDIs and/or OTC derivatives.

The Fund may invest in corporate and/or sovereign bonds of any credit rating. The Fund may also invest a small proportion of its assets in non-rated bonds.

The Investment Manager is also expected to invest in FDIs (including futures, options and currency forwards) and ETFs for hedging purposes and the reduction of risk. The Fund will bear the associated costs and fees in connection with the use of such instruments.

Shareholders may redeem their Investor Shares on any Redemption Day which shall be every business day. It is anticipated that any interest income generated by the Fund will be re-invested. The Fund should be viewed as a medium to long term investment over three (3) to (5) years.

Risk and Reward Profile

The indicator measures the risk of price fluctuations in the sub-fund certificates based on the last 5 years volatility and places the sub-fund in category 5. Please note that category 1 does not mean a risk-free investment. Historical data, is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future. These risk factors, which include below, may affect the value of the Sub-Fund's investments / expose the Sub-Fund to losses:

Exchange Rate Risk - The Fund's performance may be adversely affected by variations in the exchange rates between the base currency of the Fund and the currency in which the investments were made.

Credit Risk – money market instruments, bonds or other debt instruments held for a fund involve credit risk represented by the possibility of default by the issuer.

Liquidity Risk – Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets and may therefore prevent the raising of cash to meet redemptions of Investor Shares.

Counterparty Risk – A counterparty (i.e. any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments) may become insolvent and may fail fulfilling its obligations to the sub-fund.

Operational Risk – If a custodian or sub-custodian appointed by or on behalf of the Fund were to become insolvent or act negligently or fraudulently this could lead to the substantial loss of securities held in custody for the Fund.

For more information regarding risks, please see the Sub-Fund's Prospectus in the section entitled "Risk Factors". The section entitled "Practical Information" below explains how you may obtain a free copy of the Prospectus and other useful information.
