# WHAT IS THE PRODUCT?

### TYPE

The Fund is a sub-fund of EIGER SICAV p.l.c., an open-ended collective investment scheme organized as a multi-fund public limited company with variable share capital registered under the laws of Malta and licensed by the MFSA, whose registered office is at 259, St. Paul Street Valletta VLT 1213, Malta. The Company qualifies as 'Maltese UCITS' in terms of the Investment Services Act (Marketing of UCITS) Regulations (S.L. 370.18 Laws of Malta).

### **OBJECTIVES AND INVESTMENT POLICY**

| The Investment Objective of the Fund is to achieve medium to long term capital growth.<br>The Investment Manager shall invest primarily in a diversified portfolio of listed equities. The Investment Manager may also invest in: (i) other listed transferable securities, (ii) money market instruments, (iii) FDIs (including futures, forwards, options and contracts for differences) and (iv) eligible ETFs. The Investment Manager may invest in these asset classes either directly or indirectly through UCITS Funds.<br>The Fund may invest in equities of medium to large capitalisation companies (market capitalisation more than USD1 billion). The Fund may also limitedly invest in the equities of small capitalisation companies (market capitalisation less than USD1 billion). The bond portfolio of the Fund is expected to have an average duration of 1 to 7 years. | The Fund may engage in exchange traded FDIs and/or OTC derivatives.<br>The Fund may invest in corporate and/or sovereign bonds of any credit rating. The Fund may also invest a small proportion of its assets in non-rated bonds.<br>The Investment Manager is also expected to invest in FDIs (including futures, options and currency forwards) and ETFs for hedging purposes and the reduction of risk. The Fund will bear the associated costs and fees in connection with the use of such instruments.<br>Shareholders may redeem their Investor Shares on any Redemption Day which shall be every business day. It is anticipated that any interest income generated by the Fund will be re-invested. The Fund should be viewed as a medium to long term investment over three (3) to (5) years |

| PERFORMANCE SCENARIO  | DS                                  |           |  |
|-----------------------|-------------------------------------|-----------|--|
| Investment € 10,000   |                                     | 5 years   |  |
| Stressed scenario     | What you might get back after costs | EUR4,833  |  |
|                       | Average return each year (%)        | -13.535%  |  |
| Unfavourable scenario | What you might get back after costs | EUR7,651  |  |
|                       | Average return each year (%)        | -5.215%   |  |
| Moderate scenario     | What you might get back after costs | EUR10,763 |  |
|                       | Average return each year (%)        | 1.481%    |  |
| Favourable scenario   | What you might get back after costs | EUR15,129 |  |
|                       | Average return each year (%)        | 8.633%    |  |

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invested  $\in$  10,000. The scenarios shown illustrate how your investment could perform. You can compare them with scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product

The stress scenario shows what you might get back in extreme market circumstances and it does not take into account the situation where we are not able to pay you. This product cannot be cashed in. this means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

# WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT?

You may lose part, or all of the investment amount should the PRIIP manufacturer be unable to make the pay-out. A possible loss is not covered by an investor compensation or protection scheme.

### WHAT ARE THE COSTS?

### COST OVER TIME

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10 000. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time

| Investment € 10,000             | If you cash in after 5 years |  |
|---------------------------------|------------------------------|--|
| Total costs                     | EUR1,040                     |  |
| Impact on Return (RIY) per year | 2.02%*                       |  |

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.5% before costs and 1.48% after costs.

| COMPOSITION OF COSTS    |                                   |          |                                                                                                                                                                                                                                                                                                                                                                                                        |

| One Off Costs           | Entry Costs                       | 0%       | The fund does not charge an entry cost. The Directors may at their discretion charge a subscription fee of <b>up to 3%</b> of the amount invested.                                                                                                                                                                                                                                                     |
|                         | Exit Costs                        | 0%       | The fund does not charge an Exit cost. The Directors may at their discretion charge a redemption fee.                                                                                                                                                                                                                                                                                                  |
| Ongoing Costs           | Portfolio<br>Transaction<br>Costs | 0.71%    | This is an estimate of the costs incurred when buy and sell the underlying investments for the product. The actual amount will vary depending on fund turnover.                                                                                                                                                                                                                                        |
|                         | Other<br>ongoing<br>costs         | 1.31     | The impact of management fees and other yearly cost for managing the investments.                                                                                                                                                                                                                                                                                                                      |
| Incidental Costs        | Performance<br>Fees               | 0.31%    | The impact of the performance fee. Performance fees are charge to investor if the product outperforms its benchmark. The methodology is based on the Performance Fee applied on the appreciation in the Gross Asset Value ("GAV") of the Sub-Fund over the previous High Watermark ("HWM")multiplied by the average number of Investor Shares; Investor can refer to the Sub-Fund Offering Supplement. |

# HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended Holding Period: 5 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. The Fund has no minimum holding period but is designed for long-term investment. You should have an investment horizon of at least 5 years.

The Class A Shares in the Fund may be acquired on any Subscription Day, being every Business Day. Similarly, the Class A Shares in the Fund may be redeemed on any Redemption Day, being every Business Day by submission to the Company of the Redemption Notice by 1.30 p.m. as cut off time. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day. The Directors reserve the right to pay Dividends at any time if they consider that a payment of a Dividend is appropriate.

## HOW CAN I COMPLAIN?

You can lodge a complaint at any time by writing to the registered office of the PRIIP manufacturer at 259 St. Paul Street, VLT 1213 Valletta, Malta or via email on info@gamma.com.mt. Complaints have to be addressed to the Compliance Officer in writing (via ordinary mail or email)

## **OTHER RELEVANT INFORMATION**

Further documentation relating to the product (e.g. Memorandum & Articles of Incorporation, Prospectus and the Fund's Offering Supplement) may be requested from the Company at any time.
